

# Occupational Health Screening

## Your path to employee protection.

WorkCare has helped employers manage all aspects of workplace medical surveillance and occupational health monitoring programs since its inception in 1984. We provide:

- Rapid appointment scheduling
- Prompt physician review of results
- Drug-and-alcohol program coverage
- Exposure risk and compliance consultations
- Functional capacity and return-to-work evaluations
- Infectious disease prevention and management
- Business travel-related care, and more

### **BENEFITS FOR EMPLOYERS + EMPLOYEES**

WorkCare's occupational health practitioners and industry subject matter experts help protect our clients' assets and their employees' health and safety by:

- Ensuring that medical monitoring complies with best medical practices and applicable regulations and standards.

- Providing secure, self-service access to WorkCare's Navigator Platform, our technologically advanced medical management system.
- Basing our recommendations on existing hazards, industry type, workforce demographics, location, company culture, and other factors.
- Performing back-office functions to expedite exam scheduling, work-status reporting, medical record management, and consolidated billing.

Job applicants and employees have access to a robust national network of qualified occupational health providers, specimen collection facilities, and certified laboratories. We also support clients in selected international locations.

### **WHAT WE DO**

- ➔ We replace complexity with streamlined processes and peace of mind.
- ➔ We monitor regulatory and legal trends to support compliance efforts.
- ➔ We provide guidance to help mitigate occupational health exposure risks.
