

Incident Prevention Rapid Response Program

What is Incident Prevention Rapid Response?

Same expertise + approach. Flexible deployment.

An extension of WorkCare's Incident Prevention services, the Rapid Response Program provides experienced Injury Prevention Specialists to support continuity, rapid startup, and short-term operational needs.

Designed to help organizations:

- Maintain injury prevention momentum during transitions
- Launch programs quickly without delaying risk reduction
- Support workforce readiness during periods of change
- Protect productivity, safety performance, and injury-related costs

How Rapid Response Support Works

On-demand coverage delivered by experienced staff.

- Trained Injury Prevention Specialists ready to deploy
- Supports:
 - Rapid program implementation
 - Temporary staff backfill
 - Special projects or short-term operational needs
- Typically deployed in full-week increments
- Engagements may extend up to five consecutive weeks*

Rapid Response helps ensure continuity of Incident Prevention services while permanent staffing or long-term solutions are established.

**Subject to qualified staff availability*
